## WORK EXPERIENCE

### Startuphire, Frontend Engineer – Remote

SEPTEMBER 2023 – APRIL 2024 (8 MONTHS)

I worked at Startuphire (an early aged startup) as a Frontend Engineer that helps in finding and posting jobs online.

- Developed a **job application manager** where employers can filter out candidates based on salary, experience, etc. and can easily reject or accept based on that.
- **Integrated Calendly** that helps employers to easily send emails and interview links to the using Resend selected candidates.
- Created a job application form and implemented a **rich text editor** using tip-tap for smooth job posting experience.
- Implemented an efficient dropdown that can list **3k+ skills** without all being in the DOM.
- Designed and improved the **UI/UX** of both job seeker and job poster following the best practices of web development.
